

ERGONOMIC CASTERS

INTRODUCING THE NEW

Poly Flexon WHEEL

Round Tread Polyurethane
on Aluminum Core

New maintenance free PolyFlexon wheels

are designed for superior ergonomic performance. Protect your workers from injury! An improper wheel under a heavy load pushed or pulled poses significant injury risk. The resilient 85 Shore A polyurethane makes this wheel glide quietly across even the most debris covered floors, while maintaining the durability to carry loads up to 1500 lbs per wheel.

The wheel treads are chemically and mechanically molded onto a lightweight aluminum core. The PolyFlexon wheels are provided with 2 pieces of a 6203RS precision bearing with top hat spacers for 1/2" bore.

- Ergonomic rounded tread with precision bearings allows for easier maneuvering and reduces your pushing and pulling efforts
- Designed to roll easily and quietly
- Capacity up to 1500 pounds per wheel
- Deflects debris
- Rounded tread design provides for easier swiveling
- Non-marking
