moving blankets · straps · forearm lifters · back belts · casters · dollies · johnson bars · hand trucks · pallet jacks · dock boards & plates · stretch wrap

About Us

The Caster Guy is located in beautiful Green Bay Wisconsin. Our company has been in business since 1984 and The Caster Guy website began in 2009. We distribute casters, wheels, and related accessories all over the United States to homeowners as well as all business types. We sell via the web, phone, and to walk in customers.

The Caster Guy was created to ensure that potential customers from coast to coast are able to reap the same benefits that our local customers have enjoyed for years.

Our mission is to provide you with the best possible experience for your caster, wheel, or related accessory needs. This includes fast friendly service and competitive pricing.

As of July 1st, 2013 The Caster Guy became a division of Garland's Inc., and thus now has access to a full line of material handling products.

Established in Minneapolis, MN, 1944, Garland's has been distributing casters, wheels, shelving, and a wide variety of other material handling products for seventy years. Our strength of service and dedication has allowed our continued growth through the economic hardships of the eighties, and the more recent recession of the 2000's. Our stability has allowed us to expand into markets in Iowa, Colorado, and Wisconsin; giving us the ability to provide greater service to the Midwest.

As one of the top caster distributors in the nation, Garland's Inc. brings the needs of our customers directly to the caster industry's forefront. Being a long standing member of the National Caster Alliance, Garland's Inc. has cultivated close relationships with some of the most prestigious manufacturers in the caster industry. In addition to the thousands of other manufacturers we offer, we proudly represent the entire line of Colson products: Colson, Albion, Shepherd, MedCaster, Jarvis, Faultless, and Pemco.

Our commitment to customer service ensures Garland's is the team member for your business, and its fast paced changing landscape. All our locations have state of the art shipping and receiving departments offering same day shipping, and blind shipments; guaranteeing your customers will always be your customers. Providing high quality products gives you the dependability and durable performance that you require, and deserve.

Garland's outside sales force provides efficient, concise, professional on-site assistance to meet your needs. Our sales representatives have years of hands-on experience turning unique issues into practical solutions. Your Garland's inside coordinator is just a call away. Each inside salesperson is prepared to help you with specifications, pricing and delivery information.

We are committed to providing the highest caliber of service and quality products in our industry for our customers who rely on us for their material handling needs year after year.

Rope Tie Off

Info	Part Number
E Series rope tie off	CC2003

Forearm Lifters

Forearm Forklift Lifting Straps are a pair of straps that are ergonomically designed to encourage proper lifting techniques and reduce back injuries due to heavy and repetitive lifting. These straps employ leverage which makes the items being carried seem MUCH lighter. This makes it much easier to go up and down a flight of stairs, and to turn around corners. Forearm Forklift Lifting Straps save floors from scratches, dents, scuffs and scrapes that dollies and hand trucks leave behind. They are adjustable up to 48 inches so you can easily carry SM, MED, LG and XL items. Rated up to 800 lbs.

Part Number
FFMHVP
FOREARM FORKLIFT CLASSIC

Shoulder Dolly®

The Shoulder Dolly significantly reduces the need for traditional wheeled dollies. The system allows moving heavy and bulky objects safely over adverse terrain, yet gives the sensitive control necessary to navigate over fragile hard-wood and custom tile floors and around interior walls. Shoulder Dolly also increases efficiency and reduces the opportunity for personal injury. You'll be amazed.

Part Number
MA9308

Back Belts

Our family of dynamic back supports provide the only wearable solution to relieve back pain.

Our DELUXE model features a Velcro safety strap that ensures back pain relief even in the most strenuous work and play environments. Made in breathable, washable fabric with a sweat-resistant wick-away lining.

Black	Large, 35-40"	BABKLG
Black	X-Large, 39-44"	BABKXL

Light Medium Duty Casters

Capacity ratings are up to 350lb per caster.

One of our most popular types of plate casters are the light-medium duty 1-1/4" wide wheel casters. They are available in a wide variety of wheel diameters and wheel types to accommodate your specific needs.

They come with a standard zinc plated caster housing, two rows of ball bearings in the swivel section and all swivels are available with a brake option. The swivel casters come standard with a zinc plated dust shield that helps to protect the swivel section where the ball bearings are housed from debris and dust for longer life of the caster. Some wheel types also come with a full or partial thread guard on each side of the wheel to reduce debris from wrapping around the axle or entering the bearings in the wheel.

Product will usually ship within 24-48 hours, depending on quantity.

Piano Dolly

A quality product designed to enable users to move a variety of items with ease and reliability. ROLL-OR-KARI has been helping people move since 1941.

When you buy a ROLL-OR-KARI you get a full set of two dollies and four web straps. Ready to go; ready to do the job. Rubber and felt cushioning afford complete protection at vital spots against marring of fine finishes. Adjustable straps lock around the product securely. Retractable wheels allow instruments to rest on its own weight while in transport to avoid skidding or rolling. These features are unique with ROLL-OR-KARI trucks.
