About Us

The Caster Guy is located in beautiful Green Bay Wisconsin. Our company has been in business since 1984 and The Caster Guy website began in 2009. We distribute casters, wheels, and related accessories all over the United States to homeowners as well as all business types. We sell via the web, phone, and to walk in customers.

The Caster Guy was created to ensure that potential customers from coast to coast are able to reap the same benefits that our local customers have enjoyed for years.

Our mission is to provide you with the best possible experience for your caster, wheel, or related accessory needs. This includes fast friendly service and competitive pricing.

As of July 1st, 2013 The Caster Guy became a division of Garland's Inc., and thus now has access to a full line of material handling products.

Established in Minneapolis, MN, 1944, Garland's has been distributing casters, wheels, shelving, and a wide variety of other material handling products for seventy years. Our strength of service and dedication has allowed our continued growth through the economic hardships of the eighties, and the more recent recession of the 2000's. Our stability has allowed us to expand into markets in Iowa, Colorado, and Wisconsin; giving us the ability to provide greater service to the Midwest.

As one of the top caster distributors in the nation, Garland's Inc. brings the needs of our customers directly to the caster industry's forefront. Being a long standing member of the National Caster Alliance, Garland's Inc. has cultivated close relationships with some of the most prestigious manufacturers in the caster industry. In addition to the thousands of other manufacturers we offer, we proudly represent the entire line of Colson products: Colson, Albion, Shepherd, MedCaster, Jarvis, Faultless, and Pemco.

Our commitment to customer service ensures Garland's is the team member for your business, and its fast paced changing landscape. All our locations have state of the art shipping and receiving departments offering same day shipping, and blind shipments; guaranteeing your customers will always be your customers. Providing high quality products gives you the dependability and durable performance that you require, and deserve.

Garland's outside sales force provides efficient, concise, professional on-site assistance to meet your needs. Our sales representatives have years of hands-on experience turning unique issues into practical solutions. Your Garland's inside coordinator is just a call away. Each inside salesperson is prepared to help you with specifications, pricing and delivery information.

We are committed to providing the highest caliber of service and quality products in our industry for our customers who rely on us for their material handling needs year after year.

“Big Friggin” (BFL) Series Lift Table

The BFL Series lifts were designed for high travel applications that also require large platforms. These lifts are designed to move multiple pallets or large loads between floors or to high mezzanines. These big lifts are all built with tubular steel legs to maximize the rigidity of the unit and to keep the weight down.

- 2,000 lbs - 6,000 lbs capacity
- 10' to 18' travel
- Platforms 6' x 8' or greater
- These units are equipped with the patented “Platform Centering Device”
- All of the controllers are assembled in our UL listed panel shop
- These units are fully primed and finished with a baked enamel finish
- The cylinders are machine grade with return lines
- The oil reservoirs are mild steel for long life
- These units conform to all applicable ANSI codes
- All pressure hoses are double wire braid with JIC fittings

BFL Swing Arm Safety Bar

Double Wire Braid Hose

Platform Centering Device

Power Unit with Controller

MSL Cylinder with Clear Plastic Return Lines

Multi Stage (MSL) Series Lift Table

The MSL Series lifts were designed for the higher travel applications that require shorter platform lengths than would be available with a single scissor design. The lighter capacity units are built with solid steel legs for more compact design and greater cost savings, while the higher capacity units are built with structural tubing legs for greater rigidity, lighter weight, and optimum cost savings.

- 2,000 lbs - 12,000 lbs capacity
- 48" to 144" travel
- Platforms less than 6' x 8'
- These units are equipped with the patented “Platform Centering Device”
- All of the controllers are Underwriter Laboratory listed assemblies
- These units are fully primed and finished with a baked enamel finish
- The cylinders are machine grade with clear plastic return lines
- All pressure hoses are double wire braid with JIC fittings
- The reservoirs are mild steel
- These units conform to all applicable ANSI codes

PowerStak Pallet Stacker

Presto PowerStak™ is a family of high performance, fully powered stackers that offer significant performance advantages over manual stackers without a significant price premium.

PowerStak Stackers provide instant flexibility and versatility. Whether used as a dedicated stacker, or as a combination stacker/work positioner, or as a transporter, they provide significant improvements in worker productivity. An Abundance of ergonomic features make PowerStak Stackers the safest, easiest to operate powered stackers available. Sleak, stylish design, low overall weight, and quiet operation

allow them to fit nicely into a wide variety of work environments including: warehouses, loading docks, light assembly work cells, retail sales floors, and more.

Nine PowerStak models are available to satisfy any requirement including servicing racks up to 12 feet high. Fork Over models can be used with open bottom pallets or skids and adjustable straddle units are available for use with any pallet style, even closed bottom.

PowerStak 2,200 lb Capacity

PowerStak Fork Over Design

PowerStak Extended Mast

PowerStak Lite 1,500 lb Capacity

Pallet Jack

BT hand pallet trucks represent the global standard in manual pallet handling. More than 2,800,000 units have been sold worldwide since the first BT Lifter was launched nearly 60 years ago.

Suitable for handling loads in all types of applications, BT hand pallet trucks from Toyota Material Handling Europe provide a complete range of innovative, flexible solutions. With operator-friendly designs and fork frames that are guaranteed for life, BT hand pallet trucks provide the lowest cost of ownership thanks to their long operating life and maximum up-time.

Vertical Storage Carousel

The Hänel Lean-Lift® is the automated 'high-bay warehouse in a cabinet'

- Fast storage and retrieval times.
- High storage density, even when articles have different heights.
- Goods to man is the motto instead of man to goods: this saves time.
- Improved order-picking performance.
- High economic efficiency and cost savings.
- Protection of inventory.
- Storage and handling of bulky and heavy parts.
- Load-bearing capacity of up to 1,000 kg per tray.
- Load-bearing capacity of up to 60,000 kg per Lean-Lift® (higher payloads on request).
- Integrated storage management.

Optimum storage assignment based on precise height measurement of goods

The Hänel EcoDrive - CO2 reductions thanks to efficient energy recovery

Hänel DualDrive®

Low-noise 4-chain technology

Mezzanine Structures Customized to Your Needs

Steele Solutions, Inc., designs and manufactures mezzanines, mezzanine systems, platforms and steel structures that help end users:

- Gain more efficient use of existing overhead space;
- Support equipment, conveyors, materials, parts or products;
- Elevate plant and factory offices;
- Create storage space, and
- Provide access over machinery and materials.

- Free Standing Mezzanines
- Building Supported Mezzanines
- Rack Supported Mezzanines
- Shelving Supported Mezzanines

Businesses and organizations throughout the world rely on Steele Solutions for high quality steel mezzanines and elevated platforms used in warehouses, factories, manufacturing plants, distribution centers, mailing centers and other facilities where material handling, operational and space efficiency are valued.

Tire Rack, Auto Parts Storage

For dealers that specialize in automobiles or recreational vehicles, Rousseau has developed a line of products that provide high-density storage and an adapted work environment, with great flexibility, to protect your specialized tools and ensure methodical storage, all combined with robustness and durability. An investment that will enable you to have a refined product that will earn you the envy and admiration of all your clients.

We offer a wide variety of products designed for all of your departments.

Tire Vertical Carousels by Summit Storage Solutions will help you reclaim floor space, organize inventory, and increase productivity by taking advantage of unused vertical space. Simply design, easy operation. Summit Storage Solutions is Making Organization Easy!

- Point of use storage for quicker retrieval times
- Eliminate the need for ladders and other unsafe storage practices
- Simple Design and Operation; Easy to Use Controls
- Durable & Aesthetic Powder Coated Finish
- Cost Effective Storage Solution

SK2000[®] CLOSED TUBULAR RACK

All racks are not the same. Construction, materials, and engineering differences can really add up, even when they're not easily seen. Steel King developed the SK200[®] pallet rack to be superior in every way.

When Steel King introduced the SK2000[®] all-tubular design, it instantly became an industry standard. All materials being equal, tubular racks will always be stronger than open-backed racks. Combined with Steel King's other innovative engineering and safety features, the closed-tube SK2000[®] is the clear choice. Closed tube construction may be the most obvious advantage in SK2000[®], but it's not the only one.

Features

- Closed-tubular upright
- Decimal thickness specified
- 1" x 2" horizontal tubular bracing
- Standard Heavy Horizontal bracing
- Two full 2" welds
- Multiple offset anchor holes
- Heavy duty with nesting ridge
- Flush to column base
- Seamlessly welded tubular beam
- Full vertical fillet welds
- High strength steel
- Tear drop and rivet
- Standard 3-rivet connection, with optional 4-rivet connection available
- Heavy-duty connection plate
- Exclusive, auto-engaging safety clip
- Powder coat

Precaution Blue

Slat Wall and Grid Wall

Slatwall is the most popular merchandising wall system. Standard panels are 4' x 8' x 3/4" thick with grooved slots every 3" on center.

Slatwall grooves can be strengthened with metal channel inserts. We provide metal inserts in natural, black or gold anodized aluminum (increases weight carrying capacity). Metal channel inserts must be ordered and purchased at the same time as the panels, as the channels in the slatwall need to be milled larger to accommodate the metal inserts.

Policies

Privacy

The Caster Guy does not share your information with anyone. We are dedicated to your privacy. We do from time to time use tools to analyze our customer's movement within our site to maximize our advertising efforts.

Warranty

The Caster Guy products are warranted against material defects as well as workmanship for 1 year from the original date of purchase unless the product has been abused, modified, not properly installed or used in an environment it is not intended for.

Approval must be given from The Caster Guy prior to the return of any product for warranty claims. You are responsible for all shipping charges to return the product to The Caster Guy.

If it is determined that the product is to be covered under our warranty, we reserve the right to replace the product with an equal or greater value product in place of issuing a credit. If we are replacing the product, we will pay for normal ground transportation shipping charges to the original ship to location of your order. In either event, replacement or refund of a covered warranty product, we are not responsible for shipping charges to return the product to The Caster Guy.

If the product is deemed not covered by our warranty, we will at your request, return the product to a destination you choose at your expense.

Taxes

All applicable state and local taxes will be added to your order if you live in one of the following states:

- Colorado
- Iowa
- Minnesota
- Wisconsin

Returns

The Caster Guy has a 20% restocking fee for all returned goods. Please contact us if you wish to make a return. The customer is responsible for all returned shipping charges.

Exchanges

The Caster Guy policy regarding exchanges is as follows.

We will waive the 20% restocking fee if you are returning the product you ordered in error and reordering the correct product. You are responsible for all shipping charges incurred.

Payment Terms

You have two options for payment of products purchased from The Caster Guy.

Prepayment

This is done by creating a log in on our site and using your PayPal account or our secure credit card option.

Terms

You may complete and submit our credit application for approval. Please email or fax your completed application for credit along with your tax exempt certificate, if applicable, and send to The Caster Guy by email at sales@thecasterguy.com, or you may fax it to 920-432-8065. This process takes 1-2 business days to complete. You will be contacted by one of our members with the results of your credit request. Please contact us if it has been more than 2 business days since you submitted your application and you have not been contacted by someone from The Caster Guy. Please keep in mind our hours are Monday-Friday 8AM-5PM C.S.T. and only days we are open for business are counted as days processing your application. If approved, your account will be set up on Net-30 terms. This means you will have 30 days from the date of our invoice to fully pay your balance. All accounts whose balance is unpaid for 30 days from the original invoice dates will be placed on credit hold and no further purchases will be permitted until the past due balance is paid in full.
